Editorial Objectives
The International Journal of Research Findings in Engineering, Science and Technology (IJRFEST) promotes and publishes high quality original research papers, reviews, and short communications, in the fields of Engineering, Science and Technology. Issues published provides a framework for advancing the service sciences in their theoretical and practical aspects, serving as a vehicle for the development of service sciences, management and engineering as a broad, multi-disciplinary research areas including disciplines as computer science, software engineering, operations research, management sciences, marketing, and psychology, among others.

Indexing/Abstracting/Library
The journal is processed for inclusion in,
- Google Scholar
- PIAS International Fact Sheets/Achieves
- Ulrich's Periodicals Directory (ProQuest)
- International Bibliography of the Social Sciences (IBSS)
- National Library of Nigeria cataloguing in publication data
- Brilliant International Research Library
